1.0 Introduction

This set of appendices was prepared for the Economic Baseline Report for the Township of Norwich. It provides additional detailed information in relation to socio-economic conditions. It also provides more detailed information on the agricultural sector.

The data was derived from the 1996, 2001 and 2006 Statistics Canada Population Census and Census of Agriculture.

2.0 Demographic Profile

1995	17.7%	11.2%	9.5%	13.1%	11.4%
2000	14.4%	8.7%	7.5%	10.2%	8.6%
2005	14.7%	7.9%	5.5%	9.1%	7.6%

^a Census Family total income - the total income of a census family is the sum of the total incomes of all members of that family during the calendar year by persons 15 years of age and over.

^b The total income of a household is the sum of the total incomes of all members of that household during the calendar year 2000 by persons 15 years of age and over. The household may consist of a family group (census family) with or without other non-family persons, of two or more families sharing a dwelling, of a group of unrelated persons, or of one person living alone. Household members who are temporarily absent on Census Day (e.g. temporary residents elsewhere) are considered as part of their usual household. For census purposes, every person is a member of one and only one household. Unless otherwise specified, all data in household reports are for private households only.
